OUTDOOR PANORAMIC SUITES

TUBBO

## ¿Why Tubbo?

The great challenge of the glamping business is to surprise the customer with new luxury moments in nature.

We bring the latest innovations to the panoramic experience combining transparency and huge sliding windows to fully connect with nature. Our solid structures are specially designed for privacy and sensuality.

Tubbo constructions guarantee a panoramic and comfortable space under any adverse weather condition, and the peace of mind of its owner.

*"We can integrate into nature with the comforts we have created in our evolutionary adventure."*

*Jorge Saura  
CEO*

## The Experience

Watch the sky on a starry night, see how snowflakes fall on you, raindrops, see an incredible sunset, a romantic evening, northern lights....

The experience of observing the firmament, the vision of a bubble with the comfort and privacy of a cabin.

The vision of a bubble with the comfort and privacy of a cabin.

## The Product

Through our experience in the design of Tubbo structures we have concentrated our efforts to combine the elements we consider basic for a full experience at an affordable price.

# Create magic moments.

Our passion for observing the sky has resulted in the design of incredibly attractive structures, with a 180o panoramic view to the outside.

## Transparency

Enjoy a completely panoramic view of your surroundings and nature, 180° of transparency with views of the sky.

## Comfort

A sophisticated room at the service of your rest and comfort. Every element that makes up your room is well thought out for the maximum enjoyment of your guests.

## Privacy

Offering an intimate space without sacrificing transparency, the sophisticated design of our structure provides total coverage of the room when it is most needed.

# Study, design and innovation.

After a thorough study of the existing solutions in the glamping market, our team has focused on designing and innovating in order to offer a new, attractive and affordable solution. We have designed a solution that unifies design, transparency, comfort and privacy.

## A panoramic, lasting and private experience.

Windows, heating, bathroom, furniture, lighting...

Transparency

*"We wanted to create something that would bring together the transparency of a bubble, the privacy and comfort of a suite and the warmth of a cabin... we felt it was missing."*

Javier Saura  
Innovation Manager

## Be sensitive to the environment.

Our micro-perforated vinyls fulfill a double function. On the one hand, they camouflage the suites, mimicking any environment, and on the other hand, they filter the sunlight, casting a pleasant shadow.

Privacy

## Not only transparent cabins.

## Create together

Partnership

Collaborative  
Economy

*"We study the projects one by one. We participate in the ones that convince us the most. We want to be part of your projects."*

*Sandra Codina  
Finance Manager*

At Tubbo we believe that this trend makes sense and we want to be part of it. We think that the way to participate and contribute our knowledge and experience in this immersion in nature is to talk to each project as if it were the first.

Our experience and positioning in Capotex, allows us to take a step forward. It allows us to explore new ways of understanding a sustainable, different project.
